

# What to expect when you order.

*We would like you to be aware of our pipeline process to facilitate peace of mind from the time you place your order all the way to its final destination.*

**Below is a simple, step-by-step process that will guide you through a Genuine STVCNC experience. Enjoy.**

- ⊕ Market Research & Due Diligence
- ⊕ Choose your STVCNC Table Size according to your available layout location and production needs.
- ⊕ If you are not purchasing a Hypertherm Plasma System with us, please verify you obtain a compatible CPC Interface Port and a Mechanized Torch for your personal plasma cutter unit.
- ⊕ Verify that your location has 110V for the plasma table & 220V Power Setup for the plasma system.
- ⊕ If you have any questions or concerns, you can view [stvcnc.com/FAQS](http://stvcnc.com/FAQS) or give us a call at 1-888-701-7101.
- ⊕ Banking & Financing: Alert your Bank Institution of your expense prior to your purchase.  
Approved Financing: Funding will issue a completed invoice (1-4 Day's time).  
Declined Financing: Requests will be offered additional lenders to facilitate means.
- ⊕ Order placed alongside your add-ons & upgrades.  
Purchasing online: Prompted to pay full amount.  
Purchasing via call-in: Prompted to pay full or half of the invoice upfront before production.  
Balance due upon local pickup or upon final shipping of your order.
- ⊕ Shipping Information. Verify if your location is Commercial, Residential or Educational.
- ⊕ Shipping Information. Verify if you will require a Forklift or Liftgate. Provide Delivery Notes.
- ⊕ STVCNC Email/Call Order Confirmation & Verification
- ⊕ STVCNC Order Processing
- ⊕ STVCNC Purchase Order Funding Finalized
- ⊕ Your Order is moved into our Production Queue.
- ⊕ STVCNC Production Time. The following depends on the current volume of orders. The timeline may change without notice. Lead times may vary dependant upon material, process, production, upgrades, availability and/or unforeseen events.  
SparX Standard Modular Tables have an average of 4 weeks production time.  
SparX PRO Welded Tables have an average of 6 weeks production time.
- ⊕ Production Process:
  - \_ In-house Laser, bend & weld your custom frame build & components
  - \_ In-house Water pan Assembly
  - \_ In-house Linear Guide Rail Assembly
  - \_ In-house Gantry Assembly Build
  - \_ In-house Motors, Controller Assembly & Testing
